次の英文は、綾香 (Ayaka) さんが、インドネシア (Indonesia) のヤント (Yanto) 君から受け取った電子メールである。これを読んで、下の(1)~(4)に答えなさい。

(青森県 2003 年度)

Hi, Ayaka,

Thank you for sending me the pictures of Aomori. I really like them. The white mountains and trees are very beautiful.

As you know it is very hot in Indonesia. We have only two seasons, the rainy season and the dry season. The rainy season is from November to April, and the dry season is from May to October. It is cooler during the rainy season, so I like the rainy season better. We don't have winter, and we don't have snow here. So I have never seen snow. But someday I want to make a snowman!

Having four seasons sounds wonderful. What season do you like the best? Do you have a rainy season in Japan? If you do, when does your rainy season begin?

Do you like winter? How do you spend winter days? Could you write me about your winter life?

Please write to me soon.

Your friend,
Yanto

次は、日本での仕事を終えて帰国した ALT のビル (Bill) 先生から、日本の中学生たちに届いた E メール (e-mail) です。(1)~(7)の問いに答えなさい。

(秋田県 2003 年度)

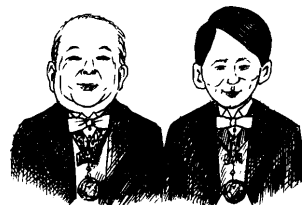

Hello, everyone. Today, I'm going to tell you about the word in my *mind. It is the word "why." I think it has a wonderful *power. I'll show you some examples.

When I was in Japan, the Japanese people around me often didn't *express their ideas and *opinions *clearly. So I was sometimes (①) because I couldn't understand what they had in their minds. One day my Japanese friend taught me, "AIn Japan, we sometimes want others to understand our ideas and opinions without expressing them clearly." I was surprised and thought, "Why are Japanese people like this ?" I really wanted to find the answer. So I came back to college and started to study Japanese *culture. The word "why" brought me here.

Last week I got an e-mail from a Japanese student studying science at college. It says she still remembers a star with a beautiful *tail in the night sky. One night she found it and watched it for a (②) time. She asked her father about it. He said, "It's *the Comet Hale-Bopp. It will come back again in many years." She was very interested in it. "Why does it have a tail and come back again ?" She thought. She has studied science hard since then. (B)The word "why" may make her a scientist.

Last October, two Japanese people, Mr. Masatoshi Koshihara and Mr. Koichi Tanaka got the *Nobel Prize in science ! I hear that they are now very (③) scientists in Japan. I have been interested in famous scientists who got the Nobel Prize and bought some books about them. I have found some of them were not very great students in school. But (C)[] When they grew up, they still had the word in their minds and always tried to find the answer. The word "why" made them great in the world.

Do you understand (D)the wonderful power of the word "why" now ? I believe the word sometimes rises in your minds also. But it doesn't have enough power yet. It is just like a *seed in your minds. In *nature, when a seed is put into the earth and given enough water, it begins to grow. With water, it grows and grows. I think water is just like learning. It's important for you to give water to your seeds. I hope you all have seeds in your minds and give enough water to them.

次の英文は、健 (Ken) が保育所 (nursery school) での職場体験について、アメリカへ帰国したグリーン先生 (Mr. Green) に送った電子メール (e-mail) である。これを読んで、問い(1)~(9)に答えよ。

(京都府 2003 年度)

Dear Mr. Green,

How are you, Mr. Green? I'm enjoying school very much. Today I want to tell you a very wonderful experience I had last week.

Last week I visited a nursery school to learn about the work for five days. Before my visit, I thought that it would be easy for me to spend time with the children, because I like children very much. I also thought that it would be more fun to work than to study at school then.

When I visited the nursery school on the first day, I first met a teacher. She told me what to do and asked me to play with the children.

Next, I went to the children's room. I was very excited. I introduced myself in front of the children, "Nice to meet you. I'm Ken Suzuki. Please call me Ken. Let's play together and become friends." At that time the children looked , too.

After that, I said to a little boy, "Come on. Let's play." He looked a little surprised and ran away. So I spoke to another boy, but he didn't say anything to me. I was very shocked. I couldn't make good friends with them on that day. I got very tired.

The next day I spent all day with the children. I spoke to them again and again but I couldn't play with them easily.

On the third day, one teacher said to me, "Be a little boy! You should think from a little child's point of view. Well..., look at that teacher."

I saw the teacher. She was always smiling and playing with the children with a lot of big gestures. So I ran around and danced with the children and I ②[(ア) the same things / (イ) they / (ウ) tried / (エ) do / (オ) to / (カ) were doing].

I soon found that the other teachers were also smiling and playing with them. At the same time they never forgot to look at the children carefully. They were good care of every child. I learned ④what to do as a teacher.

When I left the nursery school on that day, some little boys came to me and said, "Ken, please come and play with us tomorrow, too. We'll wait for you!"

Time passed quickly. When it was time to say goodbye, I suddenly became sad. We couldn't say goodbye without tears.

Thanks to my work experience in the nursery school, I learned something important from the teachers and the children. I really felt that the work was much harder than studying at school. But it was good to feel that I was needed by others. I think it is very wonderful to do something for others. Now I understand that people work for themselves and also for others. In the future, I want to work with children. I will do my best to realize this dream.

Mr. Green, would you like to send me an e-mail soon? I would like to read your comments.

Ken
